

## Recombinant Mouse Efna3 Protein (Gln23-Gly206), C-Fc tagged

**Cat. No.** Efna3-5643M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant mouse Efna3 (Gln23-Gly206) fused with the C-terminal Fc tag was expressed in mammalian cells.                                                                               |
| <b>Species</b>          | Mouse                                                                                                                                                                                   |
| <b>Source</b>           | Mammalian Cells                                                                                                                                                                         |
| <b>ProteinLength</b>    | Gln23-Gly206                                                                                                                                                                            |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 45.24 kDa                                                                                                                                                                               |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS or lyophilized from PBS.                                                                                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping**

They are shipped out with dry ice/blue ice unless customers require otherwise.

**GENE INFORMATION**

**Gene Name** Efna3 ephrin A3 [ *Mus musculus* (house mouse) ]

**Official Symbol** Efna3

**Synonyms** EFNA3; ephrin A3; ephrin-A3; EHK1 ligand; EPH-related receptor tyrosine kinase ligand 3; Epl3; EFL-2; Ehk1-L; LERK-3; AW494418; MGC129300; MGC129301;

**Gene ID** 13638

**mRNA Refseq** NM\_010108

**Protein Refseq** NP\_034238

**UniProt ID** O08545

**SDS-PAGE**
