

## Recombinant Mouse Nat14 Protein (Lys78-Leu206), N-Fc tagged

**Cat. No.** Nat14-5802M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant mouse NAT14 (Lys78-Leu206) fused with the N-Fc tag was expressed in mammalian cells.                                                                                        |
| <b>Species</b>          | Mouse                                                                                                                                                                                   |
| <b>Source</b>           | Mammalian Cells                                                                                                                                                                         |
| <b>ProteinLength</b>    | Lys78-Leu206                                                                                                                                                                            |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 41 kDa                                                                                                                                                                                  |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS or lyophilized from PBS.                                                                                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** Nat14 N-acetyltransferase 14 [ Mus musculus (house mouse) ]

**Official Symbol** Nat14

**Synonyms** NAT14; N-acetyltransferase 14; BC047219; MGC57098;

**Gene ID** 269854

**mRNA Refseq** NM\_201355

**Protein Refseq** NP\_958743

**UniProt ID** Q8BVG8
