

# Recombinant Human TWIST1 Protein (Met1-His202), N-His tagged

**Cat. No.** TWIST1-6522H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human TWIST1 (Met1-His202) fused with the N-His tag was expressed in E. coli.                                                                                               |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Met1-His202                                                                                                                                                                             |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 23.26 kDa                                                                                                                                                                               |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | 0.01M PBS, pH 7.4, 0.02 % NLS                                                                                                                                                           |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** TWIST1 twist homolog 1 (Drosophila) [ Homo sapiens (human) ]

**Official Symbol** TWIST1

**Synonyms** TWIST1; twist homolog 1 (Drosophila); acrocephalosyndactyly 3, ACS3, blepharophimosis, epicanthus inversus and ptosis 3, BPES3, TWIST; twist-related protein 1; bHLHa38; BPES2; H twist; Saethre Chotzen syndrome; SCS; H-twist; B-HLH DNA binding protein; TWIST homolog of drosophila; class A basic helix-loop-helix protein 38; ACS3; CRS1; BPES3; TWIST;

**Gene ID** 7291

**mRNA Refseq** NM\_000474

**Protein Refseq** NP\_000465

**MIM** 601622

**UniProt ID** Q15672
