

## Recombinant Mouse Chct1 Protein (Met1-Ser236), C-His tagged

**Cat. No.** Chct1-6830M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant mouse Uncharacterized protein C17orf64 homolog (Met1-Ser236) fused with the C-terminal His tag was expressed in E. coli.                                                    |
| <b>Species</b>          | Mouse                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Met1-Ser236                                                                                                                                                                             |
| <b>Description</b>      | Is expressed in testis. Orthologous to human C17orf64 (chromosome 17 open reading frame 64).                                                                                            |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                      |
| <b>Molecular Mass</b>   | 26.96 kDa                                                                                                                                                                               |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |

|                       |                                                                           |
|-----------------------|---------------------------------------------------------------------------|
| <b>Storage Buffer</b> | Supplied as solution form in PBS, pH 7.5 or lyophilized from PBS, pH 7.5. |
|-----------------------|---------------------------------------------------------------------------|

|                 |                                                                        |
|-----------------|------------------------------------------------------------------------|
| <b>Shipping</b> | They are shipped out with blue ice unless customers require otherwise. |
|-----------------|------------------------------------------------------------------------|

## GENE INFORMATION

|                  |                                                                                  |
|------------------|----------------------------------------------------------------------------------|
| <b>Gene Name</b> | Chct1 CHD1 helical C-terminal domain containing 1 [ Mus musculus (house mouse) ] |
|------------------|----------------------------------------------------------------------------------|

|                        |       |
|------------------------|-------|
| <b>Official Symbol</b> | Chct1 |
|------------------------|-------|

|                 |                                                                                                                                                                  |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Synonyms</b> | Chct1; CHD1 helical C-terminal domain containing 1; 1700125H20Rik; CHD1 helical C-terminal domain containing protein 1; uncharacterized protein C17orf64 homolog |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                |       |
|----------------|-------|
| <b>Gene ID</b> | 73634 |
|----------------|-------|

|                    |           |
