

# Recombinant Rice LOC4350800 Protein (Full Length), C-His tagged

**Cat. No.** LOC4350800-5481R    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rice LOC_Os11g37560 (Full Length) fused with the C-His tag was expressed in E. coli.                                                                                        |
| <b>Species</b>          | Rice                                                                                                                                                                                    |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Full Length                                                                                                                                                                             |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 70.4 kDa                                                                                                                                                                                |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.5 or lyophilized from PBS, pH 7.5.                                                                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping**

They are shipped out with dry ice/blue ice unless customers require otherwise.

**GENE INFORMATION****Gene Name**

LOC4350800 uncharacterized LOC4350800 [ Oryza sativa Japonica Group (Japanese rice) ]

**Official Symbol**

LOC4350800

**Synonyms**

LOC4350800; uncharacterized LOC4350800; uncharacterized protein LOC4350800; Os11g0586300

**Gene ID**

4350800

**mRNA Refseq**

XM\_015759943

**Protein Refseq**

XP\_015615429

**UniProt ID**

Q2R1Z4
