

## Recombinant *Vibrio vulnificus* vvhA Protein (Gln21-Leu472), C-His tagged

**Cat. No.** vvhA-5631V    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant <i>Vibrio vulnificus</i> vvhA (Gln21-Leu472) fused with the C-His tag was expressed in <i>E. coli</i> .                                                                     |
| <b>Species</b>          | <i>Vibrio Vulnificus</i>                                                                                                                                                                |
| <b>Source</b>           | <i>E.coli</i>                                                                                                                                                                           |
| <b>ProteinLength</b>    | Gln21-Leu472                                                                                                                                                                            |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 51.86 kDa                                                                                                                                                                               |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.5 or lyophilized from PBS, pH 7.5.                                                                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |
