

## Recombinant MPXV (strain Zaire-96-I-16) E8L Protein (Met1-Lys274), N-His tagged

**Cat. No.** E8L-5866M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                        |
|-------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant MPXV (strain Zaire-96-I-16) E8L Protein (Met1-Lys274) with N-His was expressed in E. coli. |
| <b>Species</b>          | MPXV (strain Zaire-96-I-16)                                                                            |
| <b>Source</b>           | E.coli                                                                                                 |
| <b>ProteinLength</b>    | Met1-Lys274                                                                                            |
| <b>Form</b>             | Liquid                                                                                                 |
| <b>Molecular Mass</b>   | 33.92 kDa                                                                                              |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                       |
| <b>Notes</b>            | For research use only.                                                                                 |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.4.                                                              |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                    |
