

## Recombinant Human TNFAIP8L2 Protein, E2-L184, C-His tagged

**Cat. No.** TNFAIP8L2-08H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                      |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human TNFAIP8-like protein 2 is produced by E.coli expression system and the target gene encoding E2-L184 is expressed with a His tag at the C-terminus. |
| <b>Species</b>          | Human                                                                                                                                                                |
| <b>Source</b>           | E.coli                                                                                                                                                               |
| <b>ProteinLength</b>    | E2-L184                                                                                                                                                              |
| <b>Description</b>      | Predicted to be involved in negative regulation of T cell activation and negative regulation of inflammatory response. Predicted to be active in cytoplasm.          |
| <b>Stability</b>        | 12 months from date of despatch                                                                                                                                      |
| <b>Storage Buffer</b>   | Supplied as a 0.2 µm filtered solution of 500mM PBS, 300mM NaCl, 10% Glycerol, pH7.4                                                                                 |
| <b>GenelD</b>           | 79626                                                                                                                                                                |

### GENE INFORMATION

|                        |                                                                       |
|------------------------|-----------------------------------------------------------------------|
| <b>Gene Name</b>       | TNFAIP8L2 TNF alpha induced protein 8 like 2 [ Homo sapiens (human) ] |
| <b>Official Symbol</b> | TNFAIP8L2                                                             |
