

## Recombinant Dog CCL17 protein(24-99aa), His-tagged

**Cat. No.** CCL17-4930D    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                    |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Dog CCL17 protein(Q95N01)(24-99aa), fused with C-terminal His tag, was expressed in HEK293.                                                                                                                                                                                                            |
| <b>Species</b>          | Dog                                                                                                                                                                                                                                                                                                                |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                                                                                             |
| <b>ProteinLength</b>    | 24-99aa                                                                                                                                                                                                                                                                                                            |
| <b>Form</b>             | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.                                                                                 |
| <b>Molecular Mass</b>   | 10.8 kDa                                                                                                                                                                                                                                                                                                           |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.<br>Greater than 90% as determined by SEC-HPLC.                                                                                                                                                                                                                         |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                                                                                                     |
| <b>Reconstitution</b>   | We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. |

**GENE INFORMATION**
**Gene Name**

CCL17 chemokine (C-C motif) ligand 17 [ *Canis lupus familiaris* ]

**Official Symbol**

CCL17

**Synonyms**

CCL17; chemokine (C-C motif) ligand 17; C-C motif chemokine 17; CC chemokine TARC; small-inducible cytokine A17; thymus and activation-regulated chemokine; TARC;

**Gene ID**

403586

**mRNA Refseq**

NM\_001003051

**Protein Refseq**

NP\_001003051

**SDS-PAGE**
