

## Recombinant Cynomolgus HAVCR1 protein, His-tagged

**Cat. No.** HAVCR1-1386C    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Cynomolgus HAVCR1 protein(A0A2K5WXJ6)(Val23-Gly342), fused with C-terminal His tag, was expressed in HEK293.                                                                |
| <b>Species</b>          | Cynomolgus                                                                                                                                                                              |
| <b>Source</b>           | C-His                                                                                                                                                                                   |
| <b>ProteinLength</b>    | Val23-Gly342                                                                                                                                                                            |
| <b>Tag</b>              | C-His                                                                                                                                                                                   |
| <b>Form</b>             | Supplied as 0.22µm filtered solution in PBS (pH 7.4).                                                                                                                                   |
| <b>Bio-activity</b>     |                                                                                                                                                                                         |
| <b>Molecular Mass</b>   | The protein has a predicted MW of 35.25 kDa. Due to glycosylation, the protein migrates to 100-150 kDa based on Tris-Bis PAGE result.                                                   |
| <b>Endotoxin</b>        | Less than 1EU per µg by the LAL method.                                                                                                                                                 |
| <b>Purity</b>           | > 95% as determined by Tris-Bis PAGE; > 95% as determined by HPLC.                                                                                                                      |
| <b>Storage</b>          | Valid for 12 months from date of receipt when stored at -80°C.;Recommend to aliquot the protein into smaller quantities for optimal storage. Please do not repeated freeze-thaw cycles. |

## Reconstitution

It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 ug/ul. Centrifuge the vial at 4°C before opening to recover the entire contents.

## Tris-Bis PAGE

## SEC-HPLC
