

## E.coli Residual DNA Detection Kit (qPCR)

**Cat. No.** KITF-066    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | The E.coli Residual DNA Detection Kit (qPCR) is designed for the quantitative detection of E.coli host cell DNA in intermediates, semi-finished products and finished products of various biological products. This kit adopts the principle of Taqman probe to quantitatively detect E.coli residual DNA in samples. The kit is a rapid, specific and reliable device, with the minimum detection limit reaching fg level. |
| <b>Size</b>             | 100 Reactions/kit                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Storage</b>          | Store in dark at -20°C below.                                                                                                                                                                                                                                                                                                                                                                                               |
