

## Recombinant Rubella virus E1 Protein

**Cat. No.** E1-24R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Rubella is a contagious viral infection best known by its distinctive red rash. It's also called German measles or three-day measles. This infection may cause mild or no symptoms in most people. However, it can cause serious problems for unborn babies whose mothers become infected during pregnancy. |
| <b>Form</b>             | Affinity purified, liquid                                                                                                                                                                                                                                                                                   |
| <b>Purity</b>           | >90% pure by SDS-PAGE                                                                                                                                                                                                                                                                                       |
| <b>Storage Buffer</b>   | Tris-buffered saline, pH 8.0                                                                                                                                                                                                                                                                                |
| <b>Preservative</b>     | 0.1% ProClin 300                                                                                                                                                                                                                                                                                            |
| <b>Applications</b>     | Suitable for use in ELISA, Lateral Flow, WB, and other immune tests.                                                                                                                                                                                                                                        |
| <b>Storage</b>          | Upon receipt, quick spin before open vial, aliquot and store at ≤ -20 centigrade. Avoid multiple freeze/thaw cycles                                                                                                                                                                                         |
| <b>Type</b>             | E                                                                                                                                                                                                                                                                                                           |
