

Recombinant allergen Der p 10 for Dermatophagoides pteronyssinus (European house dust mite)

Cat. No. IVP-007 Lot. No. (See product label)

SPECIFICATION

Product Overview	Der p 10 is a minor allergen of the European house dust mite. This allergen corresponds to a tropomyosin and it has been produced as a recombinant mature protein fused to a his-tag.
Source	E.coli
Molecular Mass	Determined by SDS-PAGE, the protein appears at the molecular marker of 45, 000 Da, while relative molecular mass calculated from amino acid sequence, without glycosylation, is 39, 394.7 Da.
Purity	>95% in a SDS-PAGE
Incidence	The tested incidence of the protein is 5.6%, in front of 5.6% according to the bibliography.
IVD	Serodiagnosis of allergy to European house dust mite
Stability	The protein will remain stable for four years if stored frozen.
Observation	Proteins should be maintained frozen at high concentrations. In order to defrost the protein, maintain the aliquot at 25°C without shaking to avoid aggregation. Prior making test dilutions and after defrosting the protein, is recommended to remove possible protein aggregates by centrifuging the stock solution, avoiding alterations in the immobilization of the biomolecule to the solid surface.

 Email: info@creative-biomart.com  Fax: 1-631-938-8127

 45-1 Ramsey Road, Shirley, NY 11967, USA

Storage	Protein is shipped with dry ice. Upon arrival, it should be aliquoted in order to avoid repeated freezing and thawing cycles and stored at -20°C to -80°C.
Concentration	1.225mg/ml
Notes	During shipment, small olumes of product will occasionally become entrapped in the seal of the product vial. For products with volumes of 200 ul or less, we recommend gently tapping the vial on a hard surface or briefly centrifuging the vial in a tabletop centrifuge to dislodge any liquid in the containers cap. Although recombinant antigens are expressed in non-pathogenic P.pastori and bacterial integrity is destroyed during purificaton, the antigen preparation should be handled as potentially infectious.
Type	Recombinant
ClassID 1	Tropomyosin
