

Recombinant Full Length Human growth hormone secretagogue receptor Protein, Tag Free, Liposome

Cat. No. GHSR-06HFL Lot. No. (See product label)

SPECIFICATION

Product Overview	Human GHSR full-length ORF (NP_004113.1) recombinant protein without tag. This product is belong to Proteoliposome (PL).
Species	Human
Source	Wheat Germ
ProteinLength	1-366aa
Description	This gene encodes a member of the G-protein coupled receptor family. The encoded protein may play a role in energy homeostasis and regulation of body weight. Two identified transcript variants are expressed in several tissues and are evolutionary conserved in fish and swine. One transcript, 1a, excises an intron and encodes the functional protein; this protein is the receptor for the Ghrelin ligand and defines a neuroendocrine pathway for growth hormone release. The second transcript (1b) retains the intron and does not function as a receptor for Ghrelin; however, it may function to attenuate activity of isoform 1a.
Tag	Non
Form	Liquid
Molecular Mass	32.2 kDa

Usage	Heating may cause protein aggregation. Please do not heat this product before electrophoresis.
Applications	Antibody Production
Notes	Best use within three months from the date of receipt of this protein.
Storage	Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.
Storage Buffer	25 mM Tris-HCl of pH8.0 containing 2% glycerol.

GENE INFORMATION

Gene Name	GHSR growth hormone secretagogue receptor [Homo sapiens (human)]
Official Symbol	GHSR
Synonyms	GHSR; growth hormone secretagogue receptor; growth hormone secretagogue receptor type 1; GHRP; GHS-R; ghrelin receptor; GH-releasing peptide receptor;
Gene ID	2693
mRNA Refseq	NM_004122

 Tel: 1-631-559-9269 1-516-512-3133

 Email: info@creative-biomart.com  Fax: 1-631-938-8127
