Native Human a-acid glycoprotein Protein

Cat. No. a-acid glycoprotein-003H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Acute phase protein. The preparation is homogeneous by electrophoresis in 8.0 % PAAG conducted according to Davis. The protein has diagnostic significance and its concentration is changed during various pathologies (inflammation, trauma, contraceptives, drugs etc.) By request monospecific antibodies can be developed.
Species	Human
Source	Human Plasma
Tag	Non
Molecular Mass	38-40 kDa
Theoretical pI	2.7
E1%280 nm	8.1
