

Native Human Ferritin Protein, holo form

Cat. No. Ferritin-026H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Iron containing protein. The protein has diagnostic significance and its concentration reflects various pathologic conditions (anemia, hemochromatosis, some types of tumors).
Species	Human
Source	Human Spleen
Description	Ferritin is the intracellular iron storage protein that stores surplus iron after all the cellular needs are fulfilled and releases it in the face of an acute demand.
Tag	Non
Application	Preparation can be applied for antibody preparation.
