

Carbon dots

Cat. No. Carbon-035 **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Low toxicity nanomaterials with fluorescence from 540-590 nm.
Description	Luminescent carbon quantum dots (CQDs) is a new class of nanocarbon materials which have gained widespread attention for application in chemical sensor, bioimaging, nanomedicine, solar cells, light-emitting diode (LED), and electrocatalysis
Application	The product can be applied for visualization of tissue processes.
