

Recombinant Human IGF1 Protein, GST tagged, GFP Labeled

Cat. No. IGF1-05H Lot. No. (See product label)

SPECIFICATION

Product Overview	GFP Labeled recombinant Human insulin like growth factor 1 Protein with GST tag was expressed in E. coli.

Source	E.coli
Description	IGF-1 is a hormone similar in molecular structure to insulin. It plays an important role in childhood growth and continues to have anabolic effects in adults. A synthetic analog of IGF-1, mecasermin, is used for the treatment of growth failure. Its primary action is mediated by binding to its specific receptor, the insulin-like growth factor 1 receptor (IGF1R), which is present on many cell types in many tissues.
