| <b>Species</b>           | Guinea Pig                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Description</b>       | Immunoglobulin G(IgG) is an antibody isotype. It is a protein complex composed of four peptide chains—two identical heavy chains and two identical light chains arranged in a Y-shape typical of antibody monomers. Each IgG has two antigen binding sites. Representing approximately 75% of serum immunoglobulins in humans, IgG is the most abundant antibody isotype found in the circulation. IgG molecules are synthesized and secreted by plasma B cells. |
| <b>Conjugation/Label</b> | Biotin                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Form</b>              | Liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Purification</b>      | Purified                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Purity</b>            | > 95% based on SDS-PAGE                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Applications</b>      | Western Blot; ELISA; Immunohistochemistry (IHC)                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Notes</b>             | For in vitro Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption.                                                                                                                                                                                                                                                                                                                                                    |
| <b>Storage</b>           | 2-8 centigrade                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
