

## Recombinant Human CSNK2A1 protein, His-tagged

**Cat. No.** CSNK2A1-7749H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                               |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human CSNK2A1 protein(P68400)(406aa), fused with N-terminal His tag, was expressed in E. coli.                                                                    |
| <b>Species</b>          | Human                                                                                                                                                                         |
| <b>Source</b>           | E.coli                                                                                                                                                                        |
| <b>Protein Length</b>   | 406aa(including fusion tag)                                                                                                                                                   |
| <b>Tag</b>              | N-His                                                                                                                                                                         |
| <b>Form</b>             | 20mM Tris.Cl, 50mM NaCl, 50% Glycerol, pH9.0.                                                                                                                                 |
| <b>Molecular Mass</b>   | 47.1kDa(including fusion tag)                                                                                                                                                 |
| <b>Storage</b>          | Store at -80°C and avoid repeated freeze-thaw cycles.                                                                                                                         |
| <b>Reconstitution</b>   | It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 ug/ul. Centrifuge the vial at 4°C before opening to recover the entire contents. |

### GENE INFORMATION

|                        |                                                               |
|------------------------|---------------------------------------------------------------|
| <b>Gene Name</b>       | CSNK2A1 casein kinase 2, alpha 1 polypeptide [ Homo sapiens ] |
| <b>Official Symbol</b> | CSNK2A1                                                       |
