

# Recombinant Human ASTN1, His-tagged

**Cat. No.** ASTN1-9941H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                               |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human ASTN1(O14525)(Gly211-Thr360), fused with C-terminal His tag, was expressed in E. coli.                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                         |
| <b>Source</b>           | E.coli                                                                                                                                                                        |
| <b>ProteinLength</b>    | Gly211-Thr360                                                                                                                                                                 |
| <b>Tag</b>              | C-His                                                                                                                                                                         |
| <b>Form</b>             | Phosphate buffered saline                                                                                                                                                     |
| <b>Molecular Mass</b>   | 18 kDa                                                                                                                                                                        |
| <b>Storage</b>          | Store at -20°C to -80°C.                                                                                                                                                      |
| <b>Reconstitution</b>   | It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 ug/ul. Centrifuge the vial at 4°C before opening to recover the entire contents. |
