

Recombinant Human CD29

Cat. No. CDA071P **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human CD29 encoding (aa 579-799) expressed in E.coli, shows a 48 kDa band on SDS-PAGE (Including GST). The CD29 is purified by proprietary chromatographic techniques.
Species	Human
Source	E.coli
ProteinLength	579-799 a.a.
Description	Integrin beta 1, also known as CD29, is a 130 kDa transmembrane glycoprotein that forms noncovalent complexes with various Integrin alpha subunits (including alpha 1, alpha 2, alpha 3, alpha 4, alpha 5, and alpha 6, also known as CD49a, CD49b, CD49c, CD49d, CD49e, and CD49f, respectively) to form the functional receptors that bind to specific extracellular matrix proteins. Integrin receptors are involved in the regulation of a variety of important biological functions, including embryonic development, wound repair, hemostasis, and prevention of programmed cell death. They are also implicated in abnormal pathological states such as tumor directed angiogenesis, tumor cell growth, and metastasis. These heterodimeric receptors bridge the cytoplasmic actin cytoskeleton with proteins present in the extracellular matrix and/or on adjacent cells. The clustering of integrins on a cell surface leads to the formation of focal contacts. Interactions between integrins and the extracellular matrix lead to activation of signal transduction pathways and regulation of gene expression.

Physical Appearance	Sterile Filtered clear solution.
Formulation	CD29 at 100g/ml in 50mM Tris-Acetate, pH7.5, 1mM EDTA and 20% Glycerol.
Applications	• ELISA • Inhibition Assays • Western Blotting
Storage	Store vial at -20°C to -80°C. When stored at the recommended temperature, this protein is stable for 12 months. Please prevent freeze-thaw cycles.
GENE INFORMATION	
Synonyms	Integrin beta-1; Fibronectin receptor subunit beta; Integrin VLA-4 subunit beta; CD29 antigen; ITGB1; CD29; FNRB; MDF2; VLAB; GPIIA; MSK12; VLAB; OTTHUMP00000019420; OTTHUMP00000046253; OTTHUMP00000063731; OTTHUMP00000063732; OTTHUMP00000063733; VLA-BETA; fibronectin receptor beta subunit; integrin VLA-4 beta subunit; integrin beta 1; integrin, beta 1 (fibronectin receptor, beta polypeptide, antigen CD29 includes MDF2, MSK12).
