

# Recombinant Chicken TNNI2 protein, Avi-tagged, Biotinylated

**Cat. No.** TNNI2-4784C    **Lot. No.** (See product label)

## SPECIFICATION

|                          |                                                                                                                                                                                                       |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>  | Biotinylated Recombinant Chicken TNNI2 protein(P68246)(2-183 aa), fused with Avi tag, was expressed in E.coli.                                                                                        |
| <b>Species</b>           | Chicken                                                                                                                                                                                               |
| <b>Source</b>            | E.coli                                                                                                                                                                                                |
| <b>ProteinLength</b>     | 2-183 aa                                                                                                                                                                                              |
| <b>Conjugation/Label</b> | Biotin                                                                                                                                                                                                |
| <b>Form</b>              | Tris/PBS-based buffer, 6% Trehalose.                                                                                                                                                                  |
| <b>AASequence</b>        | SDEEKKRRAATARRQHLKSAMLQLAVTEIEKEAAAKEVEKQNYLAEHCPPLSLPGS<br>MQEL QELCKKLHAKIDSVDEERYDTEVKLQKTNKELEDLSQKLFDLRGKFKRPPLR<br>RVRMSADA MLRALLGSKHKVNMDLRANLKQVKKEDTEKEKDLRDVGDWRKNIEEK<br>SGMEGRKKMFEAG ES |
| <b>Purity</b>            | >85% (SDS-PAGE)                                                                                                                                                                                       |
| <b>Storage</b>           | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                        |
| <b>Reconstitution</b>    | Please reconstitute protein indeionized sterile water to a concentration of 0.1-1.0 mg/mL. Aliquot for long-term storage at -80°C.                                                                    |
