

## Recombinant Mouse Cntn5 protein

**Cat. No.** Cntn5-4798M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                    |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Mouse Cntn5 protein(P68500) was expressed in E.coli.                                                                   |
| <b>Species</b>          | Mouse                                                                                                                              |
| <b>Source</b>           | E.coli                                                                                                                             |
| <b>Form</b>             | Tris/PBS-based buffer, 6% Trehalose.                                                                                               |
| <b>Purity</b>           | >85% (SDS-PAGE)                                                                                                                    |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                     |
| <b>Reconstitution</b>   | Please reconstitute protein indeionized sterile water to a concentration of 0.1-1.0 mg/mL. Aliquot for long-term storage at -80°C. |

### GENE INFORMATION

|                        |                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | Cntn5 contactin 5 [ <i>Mus musculus</i> ]                                                                     |
| <b>Official Symbol</b> | Cntn5                                                                                                         |
| <b>Synonyms</b>        | CNTN5; contactin 5; contactin-5; neural recognition molecule NB-2; NB-2; Gm507; 6720426O10Rik; A830025P08Rik; |
