Pneumococcal Type 9V Antigen, CRM197 Conjugated

Cat. No. Pneumococcal-47B **Lot. No.** (See product label)

SPECIFICATION

Product Overview	CRM197 Conjugated Pneumococcal Type 9V Antigen
Species	Pneumococcal
Source	Pneumococcal
Conjugation/Label	CRM197
Description	In most cases, once pneumococcal pneumonia has been identified, doctors will prescribe antibiotics. These antibiotic usually help alleviate and eliminate symptoms between 12 and 36 hours after being taken. Despite most antibiotics' effectiveness in treating the disease, sometimes the bacteria can resist the antibiotics, causing symptoms to worsen. Additionally, age and health of the infected patient can contribute to the effectiveness of the antibiotics.
Purification	IEC & HPLC
Purity	> 95%
Application	Immunogen, WB, ELISA
Storage	Store the lyophilized powder at 4 centigrade for 6 months. It is recommended to aliquote to ~10ul per vial and store at -20 centigrade for long term storage. Avoid repeated freezing and thawing cycles.
