

# Recombinant Mouse Tead3 protein, Avi-tagged, Biotinylated

**Cat. No.** Tead3-4841M    **Lot. No.** (See product label)

## SPECIFICATION

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>  | Biotinylated Recombinant Mouse Tead3 protein(P70210)(2-439 aa), fused with Avi tag, was expressed in E.coli.                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Species</b>           | Mouse                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

repeated freeze-thaw cycles.

**Reconstitution**

Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. Aliquot for long-term storage at -80°C.

**Conjugation**

Biotin

## GENE INFORMATION

**Gene Name**

Tead3 TEA domain family member 3 [ *Mus musculus* ]

**Official Symbol**

Tead3

**Synonyms**

TEAD3; TEA domain family member 3; transcriptional enhancer factor TEF-5; ETF-related factor 1; TEF-5; DTEF-1; ETFR-1; TEAD-3; Tcf13r2;

**Gene ID**

21678

**mRNA Refseq**

NM\_001098226

**Protein Refseq**

NP\_001091696
