

## Recombinant Mouse Cux2 protein, Avi-tagged, Biotinylated

**Cat. No.** Cux2-4861M    **Lot. No.** (See product label)

### SPECIFICATION

|                          |                                                                                                                                    |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>  | Biotinylated Recombinant Mouse Cux2 protein(P70298), fused with Avi tag, was expressed in E.coli.                                  |
| <b>Species</b>           | Mouse                                                                                                                              |
| <b>Source</b>            | E.coli                                                                                                                             |
| <b>Conjugation/Label</b> | Biotin                                                                                                                             |
| <b>Form</b>              | Tris/PBS-based buffer, 6% Trehalose.                                                                                               |
| <b>Purity</b>            | >85% (SDS-PAGE)                                                                                                                    |
| <b>Storage</b>           | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                     |
| <b>Reconstitution</b>    | Please reconstitute protein indeionized sterile water to a concentration of 0.1-1.0 mg/mL. Aliquot for long-term storage at -80°C. |
| <b>Conjugation</b>       | Biotin                                                                                                                             |
