

## Recombinant Donkey FGB protein

**Cat. No.** FGB-5023D    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                    |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Donkey FGB protein(P68120)(1-19 aa) was expressed in E.coli.                                                           |
| <b>Species</b>          | Donkey                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                             |
| <b>ProteinLength</b>    | 1-19 aa                                                                                                                            |
| <b>Form</b>             | Tris/PBS-based buffer, 6% Trehalose.                                                                                               |
| <b>AASequence</b>       | LDYDHEEEDG RTKVTFDAR                                                                                                               |
| <b>Purity</b>           | >85% (SDS-PAGE)                                                                                                                    |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                     |
| <b>Reconstitution</b>   | Please reconstitute protein indeionized sterile water to a concentration of 0.1-1.0 mg/mL. Aliquot for long-term storage at -80°C. |
