

## Active Recombinant Microorganism Citrate Lyase

**Cat. No.** hACL2-018M    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                     |                                                                                                                |
|---------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Species</b>      | Microorganism                                                                                                  |
| <b>Form</b>         | Slightly beige lyophilizate                                                                                    |
| <b>Bio-activity</b> | ≥ 0.25 U/mg lyophilizate                                                                                       |
| <b>Notes</b>        | This product is for research and manufacturing use only and is not intended for diagnostic or therapeutic use. |
| <b>Storage</b>      | 2-8 centigrade: At least 1 year                                                                                |
| <b>EC No.</b>       | 4.1.3.6                                                                                                        |

### GENE INFORMATION

|                        |                      |
|------------------------|----------------------|
| <b>Official Symbol</b> | hACL2                |
| <b>Synonyms</b>        | Citrate Lyase; hACL2 |
