

## Active Recombinant 3 $\alpha$ -Hydroxysteroid Dehydrogenase

**Cat. No.** 3 $\alpha$ -HSD-025    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                |
|-------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Active Recombinant 3 $\alpha$ -HSD Protein                                                                     |
| <b>Source</b>           | E.coli                                                                                                         |
| <b>Form</b>             | Light white Lyophilized powder or Liquid                                                                       |
| <b>Bio-activity</b>     | Specific activity: $\geq 100$ U/mg protein Activity: $\geq 10$ U/mg solid                                      |
| <b>Purity</b>           | $> 90\%$                                                                                                       |
| <b>Notes</b>            | This product is for research and manufacturing use only and is not intended for diagnostic or therapeutic use. |
| <b>Storage</b>          | At -20 centigrade: At least 2 years                                                                            |
| <b>EC No.</b>           | 1.1.1.50                                                                                                       |

### GENE INFORMATION

|                        |                                                           |
|------------------------|-----------------------------------------------------------|
| <b>Official Symbol</b> | 3 $\alpha$ -HSD                                           |
| <b>Synonyms</b>        | 3 $\alpha$ -Hydroxysteroid Dehydrogenase; 3 $\alpha$ -HSD |
