

## Active Recombinant S-adenosyl-L-homocysteine hydrolase

Cat. No. SAHH-085    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                         |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Active Recombinant SAHH Protein                                                                                                                         |
| Source           | E.coli                                                                                                                                                  |
| Description      | S-adenosyl-L-homocysteine hydrolase (SAHase) is a major regulator of cellular methylation reactions that occur in eukaryotic and prokaryotic organisms. |
| Form             | White lyophilized powder or Liquid                                                                                                                      |
| Bio-activity     | ≥ 1 U/mg protein                                                                                                                                        |
| Purity           | > 90%                                                                                                                                                   |
| Notes            | This product is for research and manufacturing use only and is not intended for diagnostic or therapeutic use.                                          |
| Storage          | 4-8 centigrade: At least 2 years -20 centigrade: At least 3 years                                                                                       |
| EC No.           | 3.3.1.1                                                                                                                                                 |

### GENE INFORMATION

|                 |                                           |
