

## Recombinant Human SPRR2E Protein, GST&His-tagged

**Cat. No.** SPRR2E-2937H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human SPRR2E Protein(P22531)(1-72 aa), fused with N-terminal GST tag and C-terminal His tag, was expressed in E.coli. |
| <b>Species</b>          | Human                                                                                                                             |
| <b>Source</b>           | HEK293                                                                                                                            |
| <b>ProteinLength</b>    | 1-72 aa                                                                                                                           |
| <b>Form</b>             | Phosphate buffered saline                                                                                                         |
| <b>Molecular Mass</b>   | 35 kDa                                                                                                                            |
| <b>AASequence</b>       | MSYQQQQCKQPCQPPVCPKTPKCPEPCPPPKCPEPCPPPKCPQPCPPQQCQQKC<br>PPVTPSPPCQPKCPPKSK                                                      |
| <b>Storage</b>          | Store at -20°C to -80°C.                                                                                                          |
| <b>Concentration</b>    | 0.1-1.0 mg/ml                                                                                                                     |
