

Active Recombinant Mouse IL15 Protein, His-Tagged

Cat. No. IL15-11102M Lot. No. (See product label)

SPECIFICATION

Product Overview	Mouse IL-15 Protein, His Tag is expressed from E. coli cells. It contains AA Asn 49 - Ser 162 (Accession # P48346). This protein carries a polyhistidine tag at the C-terminus. Predicted N-terminus: Met
-------------------------	---

Species	Mouse
----------------	-------

Source	E. coli
---------------	---------

ProteinLength	49-162 aa
----------------------	-----------

Description	Interleukin 15 is also known as IL15, IL-15, and is a cytokine with structural similarity to IL-2. Like IL-2, IL-15 binds to and signals through the IL-2/IL-15 beta chain (CD122) and the common gamma chain (gamma-C, CD132). IL-15 is secreted by mononuclear phagocytes (and some other cells) following infection by virus(es). This cytokine induces cell proliferation of natural killer cells; cells of the innate immune system whose principal role is to kill virally infected cells. Interleukin 15 (IL-15) regulates T and natural killer (NK) cell activation and proliferation. Survival signals that maintain memory T cells in the absence of antigen are provided by IL-15. This cytokine is also implicated in NK cell development. In rodent lymphocytes, IL-15 prevents apoptosis by inducing an apoptosis inhibitor, BCL2L1/BCL-x(L). IL-15 has been shown to enhance the anti-tumor immunity of CD8+ T cells in pre-clinical models. A phase I clinical trial to evaluate the safety, dosing, and anti-tumor efficacy of IL-15 in patients with metastatic melanoma and renal cell carcinoma (kidney cancer) has begun to enroll patients at the National Institutes of Health.

Form	Lyophilized from 0.22 µm filtered solution in 20 mM Tris, 0.5 M Arginine, 0.3 M NaCl, pH9.5 with trehalose as protectant.
Bio-activity	Immobilized Mouse IL-15 R alpha, Fc Tag at 5 µg/mL (100 µL/well) can bind Mouse IL-15 Protein, His Tag with a linear range of 1-39 ng/mL.
Molecular Mass	The protein has a calculated MW of 15.3 kDa. The protein migrates as 15 kDa when calibrated against Star Ribbon Pre-stained Protein Marker under reducing (R) condition (SDS-PAGE).
Endotoxin	Less than 1.0 EU/µg by the LAL method/rFC method.
Purity	>90% as determined by SDS-PAGE.
Storage	This product is stable after storage at: -20 to -70 centigrade for 12 months in lyophilized state; -70 centigrade for 3 months under sterile conditions after reconstitution. For long term storage, the product should be stored at lyophilized state at -20 centigrade or lower. Please avoid repeated freeze-thaw cycles.
Reconstitution	It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 µg/µL. Centrifuge the vial at 4 centigrade before opening to recover the entire contents.

GENE INFORMATION

Gene Name	IL15 interleukin 15 [<i>Mus musculus</i>]
Official Symbol	IL15
Synonyms	IL15; interleukin 15; interleukin-15; IL-15; AI503618;
