

Mouse Anti-His Tag-Peroxidase (HRP) Conjugated Monoclonal Antibody

Cat. No. CAB561 **Lot. No.** (See product label)

SPECIFICATION

Product Overview

Source	Mouse Ascites
Description	Monoclonal antibodies are produced by immunizing mouse with synthesized polypeptide 6 x His, coupled with KLH. This antibody can recognize the His-tag (HHHHHH) fused to either the amino or carboxy terminal of targeted protein. Epitope tags consisting of short sequences recognized by well-characterized monoclonal antibody have been widely used in study of protein expression in various systems. Our anti-His Tag-peroxidase conjugated monoclonal antibody provides a simple solution to detect the expression of protein with a His tag.
Application	Western Blot.
Isotype	Mouse IgG1.
Clone No	9C11.
Reagent	1×PBS with 50% glycerol.
Concentration	approximately 1mg/ml.
Recommended Antibody Dilution	Western Blot: 1:4000.
