

## Recombinant Human BTG4 cell lysate

Cat. No. BTG4-193HCL    Lot. No. (See product label)

### SPECIFICATION

#### Product Overview

|                |                                                                                                                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Species        | Human                                                                                                                                                                                                                            |
| Description    | The protein encoded by this gene is a member of the BTG/Tob family. This family has structurally related proteins that appear to have antiproliferative properties. This encoded protein can induce G1 arrest in the cell cycle. |
| Size           | 100 ul                                                                                                                                                                                                                           |
| Storage Buffer | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue)                                                                                                                        |
| Applications   | Western Blot;                                                                                                                                                                                                                    |

### GENE INFORMATION

|                 |                                                                                                     |
|-----------------|-----------------------------------------------------------------------------------------------------|
| Gene Name       | BTG4 B-cell translocation gene 4 [ Homo sapiens ]                                                   |
| Official Symbol | BTG4                                                                                                |
| Synonyms        | BTG4; B-cell translocation gene 4; protein BTG4; PC3B; protein PC3b; BTG family member 4; MGC33003; |
| Gene ID         | 54766                                                                                               |
