

# Recombinant Human CLPB cell lysate

**Cat. No.** CLPB-368HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | CLPB ClpB caseinolytic peptidase B homolog (E. coli) [ Homo sapiens ]                                                                                               |
| <b>Official Symbol</b> | CLPB                                                                                                                                                                |
| <b>Synonyms</b>        | CLPB; ClpB caseinolytic peptidase B homolog (E. coli); caseinolytic peptidase B protein homolog; FLJ13152; HSP78; SKD3; suppressor of potassium transport defect 3; |
| <b>Gene ID</b>         | 81570                                                                                                                                                               |
| <b>mRNA Refseq</b>     | NM_030813                                                                                                                                                           |
| <b>Protein Refseq</b>  | NP_110440                                                                                                                                                           |

|                                |                                                                                          |
|--------------------------------|------------------------------------------------------------------------------------------|
| <b>UniProt ID</b>              | Q9H078                                                                                   |
| <b>Chromosome<br/>Location</b> | 11q13.4                                                                                  |
| <b>Function</b>                | ATP binding; molecular_function; nucleoside-triphosphatase activity; nucleotide binding; |
