

## Recombinant Human FGD6 cell lysate

**Cat. No.** FGD6-621HCL    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

### GENE INFORMATION

|                        |                                                                                                                                                                   |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | FGD6 FYVE, RhoGEF and PH domain containing 6 [ Homo sapiens ]                                                                                                     |
| <b>Official Symbol</b> | FGD6                                                                                                                                                              |
| <b>Synonyms</b>        | FGD6; FYVE, RhoGEF and PH domain containing 6; FYVE, RhoGEF and PH domain-containing protein 6; FLJ11183; ZFYVE24; zinc finger FYVE domain-containing protein 24; |
| <b>Gene ID</b>         | 55785                                                                                                                                                             |
| <b>mRNA Refseq</b>     | NM_018351                                                                                                                                                         |
| <b>Protein Refseq</b>  | NP_060821                                                                                                                                                         |

|                            |                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>MIM</b>                 | 613520                                                                                                                               |
| <b>UniProt ID</b>          | Q6ZV73                                                                                                                               |
| <b>Chromosome Location</b> | 12q23.1                                                                                                                              |
| <b>Function</b>            | Rho guanyl-nucleotide exchange factor activity; guanyl-nucleotide exchange factor activity; metal ion binding; small GTPase binding; |
