

# Recombinant Human EFCAB6 cell lysate

**Cat. No.** EFCAB6-640HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | EFCAB6 EF-hand calcium binding domain 6 [ Homo sapiens ]                                                                                                                                                               |
| <b>Official Symbol</b> | EFCAB6                                                                                                                                                                                                                 |
| <b>Synonyms</b>        | EFCAB6; EF-hand calcium binding domain 6; EF-hand calcium-binding domain-containing protein 6; DJ185D5.1; DJBP; FLJ23588; HSCBCIP1; KIAA1672; DJ-1-binding protein; CAP-binding protein complex-interacting protein 1; |
| <b>Gene ID</b>         | 64800                                                                                                                                                                                                                  |
| <b>mRNA Refseq</b>     | NM_022785                                                                                                                                                                                                              |
| <b>Protein Refseq</b>  | NP_073622                                                                                                                                                                                                              |
