

# Recombinant Human GPATCH1 cell lysate

**Cat. No.** GPATCH1-730HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | GPATCH1 G patch domain containing 1 [ Homo sapiens ]                                                                                                                                                                  |
| <b>Official Symbol</b> | GPATCH1                                                                                                                                                                                                               |
| <b>Synonyms</b>        | ECGP; GPATC1; G patch domain-containing protein 1; evolutionarily conserved G patch domain containing; evolutionarily conserved G-patch domain containing; evolutionarily conserved G-patch domain-containing protein |
| <b>Gene ID</b>         | 55094                                                                                                                                                                                                                 |
| <b>mRNA Refseq</b>     | NM_018025                                                                                                                                                                                                             |
| <b>Protein Refseq</b>  | NP_060495                                                                                                                                                                                                             |
