| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | CCDC148 coiled-coil domain containing 148 [ Homo sapiens ]                                                   |
| <b>Official Symbol</b> | CCDC148                                                                                                      |
| <b>Synonyms</b>        | CCDC148; coiled-coil domain containing 148; coiled-coil domain-containing protein 148; MGC125588; MGC125590; |
| <b>Gene ID</b>         | 130940                                                                                                       |
