

# Recombinant Human NOLC1 cell lysate

**Cat. No.** NOLC1-1204HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                                                                                                                                                                                           |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | NOLC1 nucleolar and coiled-body phosphoprotein 1 [ Homo sapiens ]                                                                                                                                                                                                                                                                                                                         |
| <b>Official Symbol</b> | NOLC1                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Synonyms</b>        | NOLC1; nucleolar and coiled-body phosphoprotein 1; KIAA0035; NOPP130; NOPP140; P130; nucleolar protein p130; nucleolar 130 kDa protein; nucleolar phosphoprotein p130; 140 kDa nucleolar phosphoprotein; HCV NS5A-transactivated protein 13; HCV NS5A trans-regulated protein 13; nucleolar and coiled-body phosphoprotein 1; hepatitis C virus NS5A-transactivated protein 13; NS5ATP13; |
| <b>Gene ID</b>         | 9221                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>mRNA Refseq</b>     | NM_004741                                                                                                                                                                                                                                                                                                                                                                                 |
