

## Recombinant Human PGLYRP1 cell lysate

**Cat. No.** PGLYRP1-1339HCL    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | PGLYRP1 peptidoglycan recognition protein 1 [ Homo sapiens ]                                                                                                                                                                                           |
| <b>Official Symbol</b> | PGLYRP1                                                                                                                                                                                                                                                |
| <b>Synonyms</b>        | PGLYRP1; peptidoglycan recognition protein 1; peptidoglycan recognition protein , PGLYRP, TNFSF3L; PGRP; PGRP S; PGRPS; TAG7; TNF superfamily, member 3 (LTB)-like (peptidoglycan recognition protein); PGLYRP; PGRP-S; TNFSF3L; MGC126894; MGC126896; |
| <b>Gene ID</b>         | 8993                                                                                                                                                                                                                                                   |
| <b>mRNA Refseq</b>     | NM_005091                                                                                                                                                                                                                                              |

|                            |                                                                                                                                                        |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Protein Refseq</b>      | NP_005082                                                                                                                                              |
| <b>MIM</b>                 | 604963                                                                                                                                                 |
| <b>UniProt ID</b>          | O75594                                                                                                                                                 |
| <b>Chromosome Location</b> | 19q13.2-q13.3                                                                                                                                          |
| <b>Function</b>            | N-acetylmuramoyl-L-alanine amidase activity; bacterial cell surface binding; peptidoglycan binding; peptidoglycan receptor activity; zinc ion binding; |
