

## Recombinant Human RBM11 cell lysate

Cat. No. RBM11-1481HCL    Lot. No. (See product label)

### SPECIFICATION

#### Product Overview

|                |                                                                                                           |
|----------------|-----------------------------------------------------------------------------------------------------------|
| Species        | Human                                                                                                     |
| Size           | 100 ul                                                                                                    |
| Storage Buffer | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| Applications   | Western Blot;                                                                                             |

### GENE INFORMATION

|                 |                                                                                                     |
|-----------------|-----------------------------------------------------------------------------------------------------|
| Gene Name       | <a href="#">RBM11 RNA binding motif protein 11 [ Homo sapiens ]</a>                                 |
| Official Symbol | RBM11                                                                                               |
| Synonyms        | RBM11; RNA binding motif protein 11; putative RNA-binding protein 11; RNA-binding motif protein 11; |
| Gene ID         | <a href="#">54033</a>                                                                               |
| mRNA Refseq     | <a href="#">NM_144770</a>                                                                           |
| Protein Refseq  | <a href="#">NP_658983</a>                                                                           |
