

# Recombinant Human SCYL2 cell lysate

**Cat. No.** SCYL2-1574HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | SCYL2 SCY1-like 2 ( <i>S. cerevisiae</i> ) [ <i>Homo sapiens</i> ]                                                                          |
| <b>Official Symbol</b> | SCYL2                                                                                                                                       |
| <b>Synonyms</b>        | SCYL2; SCY1-like 2 ( <i>S. cerevisiae</i> ); SCY1-like protein 2; KIAA1360; coated vesicle-associated kinase of 104 kDa; CVAK104; FLJ10074; |
| <b>Gene ID</b>         | 55681                                                                                                                                       |
| <b>mRNA Refseq</b>     | NM_017988                                                                                                                                   |
| <b>Protein Refseq</b>  | NP_060458                                                                                                                                   |

|                                |                                                                                                                                           |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UniProt ID</b>              | Q6P3W7                                                                                                                                    |
| <b>Chromosome<br/>Location</b> | 12q23.1                                                                                                                                   |
| <b>Function</b>                | ATP binding; protein binding; protein kinase activity; receptor binding; transferase activity, transferring phosphorus-containing groups; |
