

# Recombinant Human SLURP1 cell lysate

**Cat. No.** SLURP1-1642HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Description</b>    | The protein encoded by this gene is a member of the Ly6/uPAR family but lacks a GPI-anchoring signal sequence. It is thought that this secreted protein contains antitumor activity. Mutations in this gene have been associated with Mal de Meleda, a rare autosomal recessive skin disorder. This gene maps to the same chromosomal region as several members of the Ly6/uPAR family of glycoprotein receptors. |
| <b>Size</b>           | 100 ul                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue)                                                                                                                                                                                                                                                                                                         |
| <b>Applications</b>   | Western Blot;                                                                                                                                                                                                                                                                                                                                                                                                     |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | SLURP1 secreted LY6/PLAUR domain containing 1 [ Homo sapiens ]                                                                                                                                                                           |
| <b>Official Symbol</b> | SLURP1                                                                                                                                                                                                                                   |
| <b>Synonyms</b>        | SLURP1; secreted LY6/PLAUR domain containing 1; secreted Ly-6/uPAR-related protein 1; ANUP; ARS; ARS component B; ArsB; LY6LS; lymphocyte antigen 6 like secreted; MDM; SLURP-1; ARS(component B)-81/S; anti-neoplastic urinary protein; |
