

# Recombinant Human TPD52L2 cell lysate

**Cat. No.** TPD52L2-1814HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                        |                                                                                                         |
|------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | TPD52L2 tumor protein D52-like 2 [ Homo sapiens ]                                                       |
| <b>Official Symbol</b> | TPD52L2                                                                                                 |
| <b>Synonyms</b>        | TPD52L2; tumor protein D52-like 2; tumor protein D54; D54; hD54; HCCR-binding protein 2; DKFZp686A1765; |
| <b>Gene ID</b>         | 7165                                                                                                    |
| <b>mRNA Refseq</b>     | NM_001243891                                                                                            |
| <b>Protein Refseq</b>  | NP_001230820                                                                                            |

|                            |                                                     |
|----------------------------|-----------------------------------------------------|
| <b>MIM</b>                 | 603747                                              |
| <b>UniProt ID</b>          | O43399                                              |
| <b>Chromosome Location</b> | 20q13.2-q13.3                                       |
| <b>Function</b>            | protein binding; protein homodimerization activity; |
