

# Recombinant Human TUBB7P cell lysate

**Cat. No.** TUBB7P-1861HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

## GENE INFORMATION

|                            |                                                                                                                                                 |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>           | TUBB7P[tubulin, beta 7, pseudogene [Homo sapiens(human) ]                                                                                       |
| <b>Official Symbol</b>     | TUBB7P                                                                                                                                          |
| <b>Synonyms</b>            | TUBB7P; tubulin, beta 7, pseudogene; TUBB4Q;                                                                                                    |
| <b>Gene ID</b>             | 56604                                                                                                                                           |
| <b>Chromosome Location</b> | 4q35                                                                                                                                            |
| <b>Pathway</b>             | Parkin-Ubiquitin Proteasomal System pathway, organism-specific biosystem;<br>Pathogenic Escherichia coli infection, organism-specific biosystem |
