

# Recombinant Human WDFY2 cell lysate

**Cat. No.** WDFY2-1922HCL    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

|                       |                                                                                                                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                                                                                                              |
| <b>Description</b>    | This gene encodes a protein that contains two WD domains and an FYVE zinc finger region. The function of this gene is unknown. An alternatively spliced transcript variant of this gene may exist. |
| <b>Size</b>           | 100 ul                                                                                                                                                                                             |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue)                                                                                          |
| <b>Applications</b>   | Western Blot;                                                                                                                                                                                      |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | WDFY2?WD repeat and FYVE domain containing 2 [?Homo sapiens?(human) ]                                                                                                                                                                                                    |
| <b>Official Symbol</b> | WDFY2                                                                                                                                                                                                                                                                    |
| <b>Synonyms</b>        | WDFY2; PROF; WDF2; ZFYVE22; WD repeat and FYVE domain-containing protein 2; WD repeat and FYVE domain containing 2; propeller-FYVE protein; WD40 and FYVE domain containing 2; WD40- and FYVE domain-containing protein 2; zinc finger FYVE domain-containing protein 22 |
