

## Recombinant Human UACA cell lysate

**Cat. No.** UACA-2141HCL    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                     |
| <b>Size</b>           | 100 ul                                                                                                    |
| <b>Storage Buffer</b> | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |
| <b>Applications</b>   | Western Blot;                                                                                             |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | UACA uveal autoantigen with coiled-coil domains and ankyrin repeats [ Homo sapiens ]                                                                                                                                       |
| <b>Official Symbol</b> | UACA                                                                                                                                                                                                                       |
| <b>Synonyms</b>        | UACA; uveal autoantigen with coiled-coil domains and ankyrin repeats; FLJ10128; KIAA1561; nuclear membrane binding protein; uveal autoantigen with coiled coil domains and ankyrin repeats; NUCLING; MGC141967; MGC141969; |
| <b>Gene ID</b>         | 55075                                                                                                                                                                                                                      |
| <b>mRNA Refseq</b>     | NM_001008224                                                                                                                                                                                                               |
