

Human Prolactin Reference standard

Cat. No. Prolactin-77H **Lot. No.** (See product label)

SPECIFICATION

Product Overview

Species	Human
Enzyme Unit	Each ampoule of the Standard contains 53 MILLI INTERNATIONAL UNITS (by definition).
Usage	For all practical purposes, each ampoule contains the same quantity of the substances listed above. Dissolve the total contents of the ampoule in a known volume of a suitable solvent with carrier protein where extensive dilution is required. No attempt should be made to weigh out any portion of the freeze-dried material. For economy of use, it is recommended that the solution be sub-divided into several small containers and stored at -40°C, or below. The ampoules do not contain bacteriostat and solutions of them should not be assumed to be sterile.
Notes	This preparation is not for administration to humans. The preparation contains material of human origin, and either the final product or the source materials, from which it is derived, have been tested and found negative for HBsAg, anti-HIV and HCV RNA. As with all materials of biological origin, this preparation should be regarded as potentially hazardous to health. It should be used and discarded according to your own laboratorys safety procedures. Such safety procedures should include the wearing of protective gloves and avoiding the generation of aerosols. Care should be exercised in opening ampoules or vials, to avoid cuts.
Storage	Unopened ampoules should be stored at -20°C. Please note: because of the inherent
